

#19 THORN ST KANGAROO PT QLD

A ten-storey unit development incorporating 28 units with a mix of four one-bed, twenty two-bed and four three-bed apartments.

A feature of the project is a twin core arrangement for the typical floor plan which allows for flow through apartments, maximizing cross ventilation.

Another key design element is the use of two-storey volumes for the entry lobbies, sky villas on levels seven and eight, and two-storey loft apartments at the top of the building.

CLIENT: Dooley Developments

GFA: 2 342 m²
