

THE BENDIGO BANK AT VICTORIA POINT DOCKLANDS

The Bendigo Bank Building formed part of a landmark mixed use development at the Melbourne Docklands.

This landmark development also comprised of a -

- 42 storey residential tower
- 5 storey serviced apartment complex
- Single level retail and restaurant areas at concourse and street levels

The Bendigo Bank Building provides approx 6,500m² of office space over 7 levels with spectacular 270° views from the waterfront to the city.

The plan form and idiosyncratic glazing treatment give the building its own separate identity, distinct from its larger neighbors the 42 storey residential tower and the adjoining Telstra Dome Stadium.
