

# NORTHLAND ENTERTAINMENT MELBOURNE VIC

**Public space, external tenancies, vibrant colour, theatrical lighting and an interactive sculpture bring the life of the street to Northland in this extension to the Entertainment Precinct, and confirm the centre's entertainment offer as the most comprehensive in Melbourne's northern suburbs..**

The development presents a new layer of external building forms and outward-facing activity to the Murray Road frontage of the centre, wrapping around existing buildings to link with an integrate a multi-deck carpark.

Four new external tenancies, including a nightclub, are set around a public plaza which is defined at either end by large, illuminated screens above parapet level. A tall, illuminated glass tower provides an additional focal point. The project also includes a new glazed mall extending fro the existing building, with four tenancies and a kiosk.
